

# Knight KLCBP30 Housing

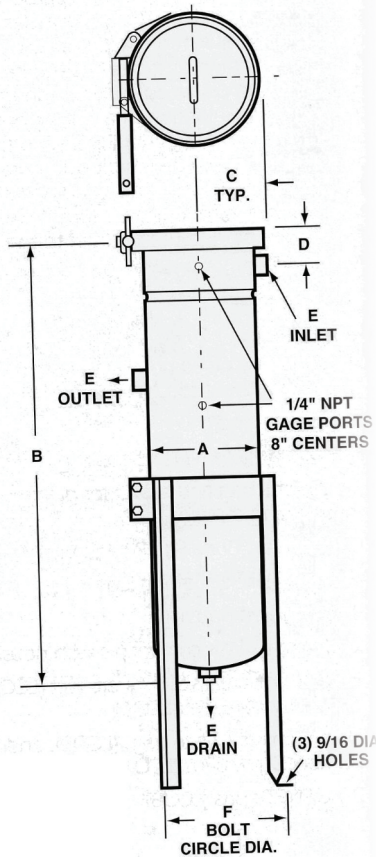

Low Cost Filter Housing for flow rates to 100 gpm\*

## KNIGHT KLC-BP30 FILTER HOUSING

This high-capacity bag filter is low in cost and offers more dirt holding capacity. This housing can be made from carbon steel or stainless steel. The newly designed clamp cover that is easily removed, reduces time spent on cleaning and bag replacement. Housings also utilizes a Unistyle design offering the option of a side or bottom outlet. There is a 2-inch inlet and outlet on the side, with a 2-inch plugged drain at the bottom of the housing. The outlet can easily be changed to the bottom by merely moving the plug from the drain to the side outlet.

### Features
