## Made in the USA: Then and Now

Thinking ahead of the curve since 1972, Knight Filter Corporation has been manufacturing in the USA for over 35 years which complies with the American Recovery and Reinvestment Act of 2009 Requirement to "Buy American".

During this economic crisis, minimum wage increases beyond for our customers, Houston, TX and Ardmore, PA and many other factors are providing the best lead time in locations.

changing the way we all do the industry and continuing to business. When it comes to the manufacture in the U.S., that is U.S. Stimulus Plan requirement what Knight is all about" says to "Buy American", Knight Filter founder Jim Knight. Corporation has been ahead of the curve since 1972.

For over 35 years, Knight Filter Corporation remains family-owned and operated. Knight now operates two manufacturing locations with improving technology, both producing hundreds of filtration products. Despite the advancements over the years, Knight continues to take an "old-school" approach to the fundamentals of doing business

"Being loyal to our distributors, making quality bags are engineered, tested,

According to Section 1605 of the ARRA of 2009, none of the funds made available through the act can be used for a project for construction, alteration, maintenance, or repair of a public building or public work unless all of the manufactured goods used in the project are produced in the United States.

Filter distributors nationwide can confidently sell Knight products knowing that all of Knight's filter bags are 100% manufactured in the U.S.
